iQ budz 07

IQPODZ07

True Wireless Earbuds Manual

Bluetooth V5.0   **iqbudz.ca**

SAFETY CAUTION

If you choose to use the iQ budz while driving, please observe and abide by all applicable driving laws.

Please keep all the equipment and accessories away from small children or animals as the small pieces may cause choking if swallowed.

Please refrain from using the product in extreme temperature environments (Below - 20 degrees centigrade or above 45 degrees centigrade)

Extreme temperatures can reduce the charging capacity of the device, and shorten the battery life.

Do not use abrasive cleaning solvents to clean the budz.

Do not allow the budz near sharp objects as this will cause scratching and damages.

Exposure to heavy rainfall or other moisture can severely damage the product. Submersion of the product in liquid will likely cause irreversible damage to the budz.

Please use caution when listening to media at high volume for long periods of time as it can cause damage to your hearing over time.

APPEARANCE

1 - Main Button
2 - Charging Indicator
3 - Microphone
4 - Charging Pins
5 - Ear Tips
6 - Charging Case
7 - Case Charging Indicator
8 - Type - C Charging Port
WEARING THE BUDZ

Remove the budz from the charging case and Identify the Right **R** and Left **L** sides by looking for the icons on the budz. This indicates which ear you wear the budz in.

L Left budz   **R** Right budz

Place the **R** budz in your right ear and the **L** budz in your left ear.

Gently adjust the budz until they are firmly in place.

CHARGING THE BUDZ

Place both budz into the Charging Case. The budz Charging Indicators will light up white when being charged and will turn off automatically after it is fully charged.

budz Charging Indicator

CHARGING THE CASE

Use the included USB Type-C charging cable and connect the case to a power supply.

Important Notes:
- Please use the supplied Type-C cable to charge this device. Using a third party cable may cause damage to the device.
- Do not attempt to force open the built-in battery as this could damage the device.
- A fully charged device will lose its power automatically if left unused. It is recommended to charge the device after periods of unuse.

BLUETOOTH PAIRING

1. Take the budz out of the charging case. They will Power On and enter auto pairing mode. The budz indicator will slowly flash white, signifying that the budz are ready to be paired with a Bluetooth device.
Note: If the budz are in an OFF state, press and hold the Main Button on the Ⓡ and Ⓛ budz for 2 seconds to Power On. The budz will automatically enter pairing mode.

2. Go to the Bluetooth connection list on your smart phone or tablet and search for **"IQBUDZ07"** Bluetooth name. Click to connect. Once connected, a voice prompt will say, **"Connected"** indicating that the budz are connected to the Bluetooth device.

Note: Once the budz have been paired with a Bluetooth device they will automatically connect to that same device when they are Powered on in the future.
