APPEARANCE AND BUTTONS

ON-THE-GO CHARGING CASE

 **x4** On-the-go **24 hour** total battery life - recharge your headphones 4X with the Charging/Storage Case

OPERATION INSTRUCTIONS

Initial Set Up / Pairing:

Step 1: Press main button on the **R** and **L** iQ budz for 2-3 seconds.

Step 2: Once the iQ budz are turned on wait for the prompt **"Left channel / Right channel pairing"** this confirms that the budz are synced.

Step 3: Go to the Bluetooth connection list on your smart phone or tablet and search for **"IQBUDZ30P"** Bluetooth name on your device. Click to connect.

Once connected you will hear the voice prompt say **"Connected"**, this indicates that the budz are connected to your Bluetooth device.

OPERATION INSTRUCTIONS

Auto Power On: Once the budz are removed from the case they will automatically power on, a blue light on each budz will flash 3 times and the connection process will start.

Note: *The case must be charged in order for the budz to automatically power on. If the case is not charged the budz can be manually turned on.*

Manual Power On: Press and hold the main button on the **R** and **L** budz at the same time for 3 seconds to power on.

Auto Power Off: Place the budz back into the case and close the lid. Once you have placed it in the case the budz will automatically power off within 15 seconds providing that the case is charged.

Manual Power Off: Press and hold the main button on the **R** and **L** budz at the same time for 4 seconds to power off.

OPERATION INSTRUCTIONS

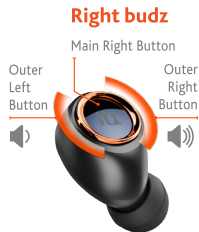

Music Play/Pause: Press the main button on the **R** or **L** budz to play/pause the music or videos.

Music Next/Previous

(Left budz Only): Press the Outer Left Button on the **L** budz to go to previous song. Press the Outer Right Button on the **L** budz to go to next song.

Volume Up/Down

(Right budz Only): Press the Outer Right Button on the **R** budz to turn the volume up. Press the Outer Left Button on the **R** budz to turn the volume down.

OPERATION INSTRUCTIONS

Answer Call: During incoming call press **R** or **L** budz button to answer a call.

End Call: During a call press **R** or **L** budz button to end a call.

Refuse Call: During an incoming call double click **R** or **L** budz button to refuse the call.

Google Assistant/Siri: Double click the main button on either budz to activate Google Assistant/Siri voice feature. Wait 2 seconds until you hear the prompt before giving a voice command.

Note: *This features is only available with Apple and Android phones that have Google Assistant/Siri capabilities.*

OPERATION INSTRUCTIONS

Automatic Connection: After the initial set up and connection the iQ budz will automatically connect to your device next time you turn them on.

Note: *Please ensure the Bluetooth is active on your device for automatic connection.*

Low Battery Warning: When the battery level is 20% or lower the indicator light will flash red every 5 seconds. There will also be a voice prompt every 5 minutes indicating low battery level.

OPERATION INSTRUCTIONS

Charging the iQ budz

Put **R** and **L** iQ budz into the charging case and close the lid to start the charging process. The charging headset light will glow red until fully charged. Once fully charged the red light will turn off.

Case power indicator

....	100% Power	...	75% Power
..	50% Power	•	25% Power

The case holds 400mAh of battery power which can charge the iQ budz up to 3 times from no battery power before the case has to be recharged.

OPERATION INSTRUCTIONS

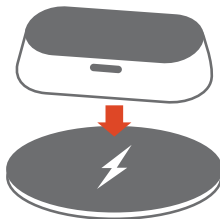

Charging the iQ budz - Wired

To recharge the case, plug the included micro USB cable into the case and connect to a USB power supply, such as a wall adapter or Computer USB port.

Charging the iQ budz - Wirelessly

To recharge the case wirelessly, place the case on top and centered on a wireless charging pad with the lid facing up.

Note: Wireless charging pad not included.
