SAFETY CAUTION

If you choose to use the iQ Podz while driving, please observe and abide by all applicable driving laws.

Please keep all the equipment and accessories away from small children or animals as the small pieces may cause choking if swallowed.

Please refrain from using the product in extreme temperature environments (*Below - 20 degrees centigrade or above 45 degrees centigrade*)

Extreme temperatures can reduce the charging capacity of the device, and shorten the battery life.

Exposure to heavy rainfall or other moisture can severely damage the product. Submersion of the product in liquid will likely cause irreversible damage to the Podz.

Please use caution when listening to media at high volume for long periods of time as it can cause damage to your hearing over time.

OPERATION INSTRUCTIONS

Initial Set Up / Pairing:

Step 1: Press main button on the **R** and **L** iQ Podz for 2-3 seconds.

Step 2: Once the iQ Podz are turned on wait for the prompt **"Left Channel /Right Channel,"** this confirms that the Podz are synced.

Step 3: Go to the Bluetooth connection list on your smart phone or tablet and search for **"IQPODZ26W"** Bluetooth name on your device. Click to connect.

Once connected a blue and red light will start to flash, indicating that the Podz are connected to the Bluetooth device.

OPERATION INSTRUCTIONS

Power On: Press the **R** and **L** Podz buttons at the same time for 2 seconds. An alternating red and blue light will start flashing on the Podz followed by a **"Power On"** message through the headphones.

Power Off: Press the **R** and **L** Podz buttons and hold for 2-3 seconds to Power Off both iQ Podz.

Music Play/Pause: Press the **R** or **L** Podz button to play or pause music or videos.

Music Next/Previous: Double press the **R** Podz button to go to the next song. Double press the **L** Podz button to go to the previous song.

Answer Call: During incoming call press **R** or **L** Podz button to answer a call.

End Call: During a call press **R** or **L** Podz button to end a call.

Refuse Call: During an incoming call double click **R** or **L** Podz button to refuse the call.

OPERATION INSTRUCTIONS

Auto Power On: Once the Podz are removed from the case they will automatically power on, a blue light on each Podz will flash 3 times and the connection process will start.

Note: *The case must be charged in order for the Podz to automatically power on. If the case is not charged the Podz can be manually turned on.*

Manual Power On: Press and hold the main button on the **R** and **L** Podz at the same time for 3 seconds to power on.

Auto Power Off: Place the Podz back into the case and close the lid. Once you have placed it in the case the Podz will automatically power off within 15 seconds providing that the case is charged.

Manual Power Off: Press and hold the main button on the **R** and **L** Podz at the same time for 4 seconds to power off.

OPERATION INSTRUCTIONS

Low Battery Alarm: When the headset power is less than 20%, it flashes a red light and reminds you to charge your iQ Podz.

Low Battery Power Down: When the iQ Podz run out of battery power they will automatically shut off.

Automatic Connection: After the initial set up and connection the iQ Podz will automatically connect to your device next time you turn them on. *(Please ensure the Bluetooth is active on your device for automatic connection.)*

OPERATION INSTRUCTIONS

Charging The iQ Podz

Put **R** and **L** iQ Podz into the charging case and close the lid to start the charging process. The charging headset light will glow red until fully charged. Once fully charged the red light will turn off.

Case Power Indicator
